Aluminium Profile 0.9 mm

Strengthen Greenhouses with Aluminium Profile 0.9 mm

Agriplast Aluminium Profile 0.9 mm, a rust-free, 186-gram-per-meter solution, secures greenhouse films, nets, and shades, ensuring durability and optimal crop conditions.

3x

longer lifespan with rust-free design

2x

better stability for greenhouse structures

4x

improved crop yield with heat prevention

Agriplast Aluminium Profile 0.9 mm, available at Agriplast Tech India, is a robust, rust-free solution for greenhouse and net house stability. Weighing 186 grams per meter with a 0.9 mm thickness, this 4-meter-long profile fixes films, insect nets, and shade nets onto GI pipes, preventing heat buildup. Its superior strength ensures a secure environment for maximum crop growth and yield. Packed in bundles of 96 pieces (384 meters), it's in stock for immediate delivery from Hosur or Ahmedabad. Visit www.agriplast.co.in to enhance your greenhouse performance with this durable aluminum profile today!

Brand	Agriplast
Material	Aluminium
Thickness	0.9 mm
Weight per meter	186 grams + - 5 %
Length per piece	4 mtrs
Size	Size
Design	Standard-03
Packaging Details	Standard Packing in 96 pic in a bundle= 384 mtr
Recommended for	Greenhouse/Net house
Delivery Time	Immediate
Port of Dispatch	Hosur/Ahmedabad

Frequently Asked Questions

What is the Aluminium Profile 0.9 mm used for?

It is used to fix greenhouse films, insect nets, and shade nets securely to greenhouse structures.

How is this profile fixed in a greenhouse?

It is fixed onto GI pipes and holds the covering materials firmly in place.

What is the material of the Aluminium Profile?

It is made of high-quality aluminium, ensuring durability and rust resistance.

What are the key advantages of using this aluminium profile?

Rust-free for long life Prevents excess heat accumulation Provides a strong grip for fixing greenhouse materials

What is the thickness and weight of the Aluminium Profile?

It has a 0.9 mm thickness and weighs 186 grams per meter ($\pm 5\%$).

What is the length of each Aluminium Profile piece?

Each piece is 4 meters long.

How is the Aluminium Profile packaged for delivery?

It is packed in bundles of 96 pieces, covering a total of 384 meters per bundle.

Can this Aluminium Profile withstand harsh weather conditions?

Yes, it is designed to be durable and rust-proof, making it ideal for long-term greenhouse use.

Where is the Aluminium Profile dispatched from?

It is dispatched from Hosur or Ahmedabad for quick delivery.
