Frequently Asked Questions

What is Agriplast Anti-Hail Net Raschel?

It is a high-quality polyethylene net designed to protect crops from hailstorms, birds, and wind while ensuring good ventilation.

How does this net protect crops?

The net acts as a barrier against hailstones, preventing physical damage to crops while still allowing air and light to pass through.

What makes this net different from other anti-hail nets?

Imported from Ginegar (Israel), a leading manufacturer Made of high-quality virgin polyethylene 5-year UV warranty for long-lasting performance Unique design allows sharp stems to pass through without tearing the net

Can the Anti-Hail Net be reused?

Yes, it is easy to install and uninstall, making it reusable for multiple seasons.

What is the lifespan of the net?

It comes with a 5-year UV warranty, but with proper care, it can last even longer.
