Agriplast Shade Net (Mono x Mono)

Enhance Greenhouses with Agriplast Shade Net (Mono x Mono)

Agriplast Shade Net (Mono x Mono), crafted from high-quality HDPE, offers 35% and 50% shade in White or Green, ideal for net houses and polyhouses with 3-year UV life.

3x

stronger resistance for outdoor durability

2x

better shading with 35% and 50% options

4x

longer life with 3-year UV stabilization

Agriplast Shade Net (Mono x Mono) is a premium HDPE solution for greenhouse and horticulture farming. Available in 35% (100 GSM) and 50% (125 GSM) shade options in White or Green, this monofilament net provides high resistance for outdoor use. UV-stabilized for 3 years, it's perfect for net houses and polyhouses, available in 4.2m, 6.2m, and 6.5m widths and 50m or 100m lengths. In stock for immediate delivery from Hosur or Ahmedabad, it ensures durable shading and optimal growing conditions. Visit www.agriplast.co.in to elevate your cultivation with this robust shade net today!

Frequently Asked Questions

What is the Agriplast monofilament shade net used for?

Agriplast monofilament shade nets are primarily used in net houses and polyhouses for greenhouse farming and horticulture applications.

What material is the Agriplast shade net made from?

The shade net is made from high-density polyethylene (HDPE), ensuring durability and strength.

Is the shade net UV stabilized?

Yes, it is UV stabilized, which enhances its lifespan and protects crops from excessive sunlight exposure.

What is the expected lifespan of the shade net?

The UV life of the shade net is 3 years, based on a pro-rata basis.

Is the Agriplast monofilament shade net BIS approved?

Yes, it is BIS approved and available against order.
